Dear Families and Friends:

Since I am receiving these days more e-mail seasonal greetings than ever, I guess it is time for me to join the e-mail flow of 21st century modernity.

In January 2010 I banged my forehead against the plain glass door of a small library in town. I fell back 180 degrees and smashed my L-1 spinal part.

I was on my back with a plaster cast covering my body day-and-night for 5 months, in and out of hospital several times, attended to by Western and Chinese medicine practitioners, plus physiotherapists.

I have been slowly recovering from the middle of this year aided by a walking stick and accompanied wherever I go by a nursing aide.

With the steadfast support and encouragement of family members, relatives and friends from here and far away during the past two years I am happy and have no complaints to make.

During my enforced rehabilitation period, I had time for meditation and self-reflection. Having recently passed my 89th birthday, I now acknowledge to a sufficient mellowness in temperament so that others would be more patient and understanding with me.

I no longer find it difficult to think less of the mundane in life, so much so I now take pleasure in looking ahead to the coming 2011 - 2020 decade, whether it has to do with personal or family affairs, business matters or Hong Kong's future under One Country - Two Systems.

Being an optimist by nature and a believer in work discipline, I look forward to the risks and challenges of the coming decade, without overlooking the growing concern about economic and environmental Armageddon that may lie ahead.

Come what may, I believe in doing the best I can in life for family, friends and community, reinforced by the Eternal Spirit, the fountainhead of all great religions on this earth.

MERRY CHRISTMAS - HAPPY NEW YEAR !

Love

Hilton
